Use of Borough High Street Building Policy and Guidance – in response to COVID-19

Use of Borough High Street Building Policy and Guidance - following COVID-19

Version number	Dates produced and approved (include committee)	Reason for production/ revision	Author	Location(s)	Proposed next review date and approval required
V1.2	August 2020 Consultation September 2020 Final September 2020 Revised October 2020 Revised November 2020	Change to standard practice following COVID-19	DVC(R), Head of Clin Practice, Unit Leaders Patient Care	SharePoint and UCO main Website	This policy will be reviewed as part of our ongoing risk assessment as we train staff, receive feedback and review initial experience of opening the clinic
V1.4	Dec 2020	Relocating the clinic to BHS site	DVC(R), Head of Clin Practice, Unit Leaders Patient Care	SharePoint and UCO main Website	
V1.5	May 2021	Response to substantial changes in national guidance	DVC(R), Head of Clin Practice	SharePoint and UCO main Website	This policy will be reviewed as part of our ongoing risk assessment and in response to changing policy guidance
V1.6	August 2021	Response to substantial changes in national guidance	DVC(R), Head of Clin Practice	SharePoint and UCO main Website	This policy will be reviewed as part of our ongoing risk assessment and in response to changing policy guidance
V1.7	September 2021	Minor changes related to use of building and further advice received from public health	DVC(R), Head of Clin Practice	SharePoint and UCO main Website	This policy will be reviewed as part of our ongoing risk assessment and in response to

					changing policy guidance
V1.8	December 2021	Changes to align with changes in national policy	DVC(R), Head of Clin Practice	SharePoint and UCO main Website	This policy will be reviewed as part of our ongoing risk assessment and in response to changing policy guidance
Equality Impact					
Positive equality impact (i.e. the policy/procedure/guideline significantly reduces inequalities)					
Neutral equality impact (i.e. no significant effect)					X
Negative equality impact (i.e. increasing inequalities)					
If you have any feedback or suggestions for enhancing this policy, please email your comments to: quality@uco.ac.uk					

Use of Borough High Street Building Policy and Guidance - following COVID-19

CONTENTS

1. Scope of Operational Plan.....	5
2. Policy and Guidance.....	5
3. Attending the borough high street site at uco – at risk groups and travel; self-screening and routine asymptomatic COVID testing	6
1. At risk groups, such as those with highest clinical risk, and those with increased risk of severe illness from COVID-19	6
2. Responsibility to self screen, seek asymptomatic tests twice a week and act on COVID-19 symptoms6	
3. Practical and clinical staff, and student osteopaths - close contacts	8
4. Unvaccinated staff and students – close contacts	9
5. Non-clinical vaccinated staff – close contacts	9
6. Vaccinations.....	9
7. Travel to and from UCO.....	10
8. Food and Refreshments	10
4. Delivering education	11
1. UCO approach.....	11
2. practical education	11
3. Learning hub use	12
5. Staying safe and Physical distancing	12
1. Arrival.....	12
2. Moving through the building	13
3. Communal areas	13
4. Teaching spaces	14
5. Practical teaching	15
6. Offices	16
9. Training of staff and students	16
10. Regular dissemination of information	17
11. Infection control	17
1. All	17
2. What do students need to bring for practical teaching sessions at BHS?.....	18
3. Responsibilities of lecturers	18
4. Arrival in your classroom	19
5. Practical teaching sessions.....	19
6. What PPE will be required	22

7.Storage, Provision of PPE, removal and disposal of PPE	22
8.Environment.....	23
12. Logging of interactions so that we can trace contacts and manage possible outbreaks.....	23
1.Reporting system	23
13. Asymptomatic testing and vaccinations	25
14. Summary of changes	27

1. SCOPE OF OPERATIONAL PLAN

This policy and guidance have been developed in response to the COVID-19 pandemic and the necessary and significant changes that are needed in educational and clinical practice to ensure the safety of students, patients, staff and other stakeholders, including delegates attending continuing professional development courses, staff and visitors to UCO's Borough High Street site. Please read this document in conjunction with the UCO Clinical Services: Clinical Policy and Guidance – following COVID-19.

Our understanding of this situation will continue to evolve and be informed by guidance from government, regulators and professional organisations. As such, this document will be updated as new guidance is received and in response to feedback, and our experience of clinical operations.

Future updates aligned with changes in government guidelines will be disseminated via the UCO Sharepoint/website/emails and incorporated into this written/published policy as needed.

The UCO has undertaken risk assessments and has a COVID-19 Outbreak Management plan. Both are available on [UCO SharePoint](#). and on the [UCO main website](#). These have been used to inform this guidance and policy. We have reviewed practices and procedures in response to COVID-19 and current guidance. The UCO have taken the necessary steps to reduce and mitigate risk to create a COVID-19 safe working, studying and clinical environment. Fundamental to our creation of a safe environment is that everyone at the UCO takes responsibility to follow this guidance effectively.

This operational policy, combined with the clinical services policy and guidance forms part of the UCO's policies and procedures and as such, staff, students and visitors (including patients) are expected to adhere to this whilst using the Borough High Street (BHS) site.

Should any user of the BHS site have concerns about physical resources they should contact estates@uco.ac.uk. Concerns about COVID-19 safety, this guidance or its operation at UCO should be emailed to steven.vogel@uco.ac.uk.

2. POLICY AND GUIDANCE

The guiding principles in developing this policy and guidance are:

- The safety and wellbeing of all who work, study, attend for healthcare services and visit the UCO is a priority.

- We will utilise best practice guidelines provided by The UK Health Security Agency, the NHS, UK Government and any other relevant organisations.
- That the key considerations are:
 - o Infection control processes
 - o Occupancy numbers
 - o Physical distancing
 - o Ventilation
 - o Use of face coverings where appropriate
 - o Asymptomatic testing
 - o Access and uptake to vaccination

This policy and guidance is structured into the following sections:

- Section 3 - Attending the Borough High Street site at UCO
- Section 4 - Delivering education
- Section 5 - Staying safe and Physical distancing
- Section 6 - Training of staff and students
- Section 7 - Regular dissemination of information
- Section 8 - Infection control
- Section 9 - Logging of interactions, tracing contacts and managing possible outbreaks

3. ATTENDING THE BOROUGH HIGH STREET SITE AT UCO – AT RISK GROUPS AND TRAVEL; SELF-SCREENING AND ROUTINE ASYMPTOMATIC COVID TESTING

-
1. AT RISK GROUPS, SUCH AS THOSE WITH HIGHEST CLINICAL RISK, AND THOSE WITH INCREASED RISK OF SEVERE ILLNESS FROM COVID-19
 - a. Staff have been asked to complete a risk assessment form and to discuss their own situation with their line manager if necessary, before attending the UCO. Staff have also been asked about their views about returning to work and flexible working arrangements. The UCO will continue to support staff by promoting flexible working.
 - b. Students must contact the UCO if for any reason they do not feel able to attend the UCO at this time. Students have also been asked to complete a risk assessment form which will alert the UCO to individual concerns. The UCO will continue to be as flexible as it can with students, recognising the circumstances of individual students and the significant pressure that some students are under.
 - c. Guidance on shielding and protecting people who are clinically extremely vulnerable from COVID-19 has been revised and may be accessed [here](#). The shielding programme has ceased.

 2. RESPONSIBILITY TO SELF SCREEN, SEEK ASYMPTOMATIC TESTS TWICE A WEEK AND ACT ON COVID-19 SYMPTOMS
 - a. Staff, students and visitors are expected to be familiar with the symptoms of COVID-19 and their associated risk and to act accordingly in line with government policy.

- b. Staff and students attending UCO must make use of asymptomatic testing resources and should seek tests twice a week. Tests should be performed twice a week, 3-4 days apart.
- c. Asymptomatic test results should be reported on every occasion to the government using the “Report a COVID-19 rapid lateral flow test result” [site](#) and on UCO’s “Log your Bi-weekly (LFD) COVID Test results” SharePoint site [here](#). The way UCO uses the information reported to us about COVID may be seen on our privacy notice [here](#).
- d. The text message or email response from the “Report a COVID-19 rapid lateral flow test result” [site](#) should be uploaded as evidence of your test on UCO’s “Log your Bi-weekly (LFD) COVID Test results” [SharePoint site](#).
- e. Opportunities to access asymptomatic tests include:
 - I. Home testing kits are available for staff and students of the UCO from our partners at [London Southbank University](#).
 - II. Community testing via your local authority or at a [Southwark community site](#). The nearest site to UCO is at St Thomas Street Exit, Southwark, London, SE1 9QU. This is between London Bridge railway station exit and the Shard.
 - III. Using home testing kits available from your local authority or orderable online [here](#). It is important that, when testing at home, test results are reported online via this [link](#) whether positive, negative or void in addition to reporting results to [UCO via its SharePoint site](#). If you test positive on a lateral flow test you should report the positive test using our [COVID report tab on SharePoint](#). Reporting results helps the NHS and government monitor the spread of the virus and combat the virus.
- f. The main symptoms of coronavirus are:
 - i. High temperature
 - ii. New or continuous cough
 - iii. Loss or change to your sense of smell or taste
 - iv. Most people with coronavirus have at least one of these symptoms
- g. Further information about the symptoms of COVID-19 is available [here](#). The [ZOE COVID Study](#) has also identified that headache, sneezing, runny nose, and sore throat may also be important symptoms to be aware of.
- h. Staff, students and potential visitors must not attend the UCO if they have any symptoms of COVID-19 or are feeling unwell, and must follow:
 - i. The usual procedures for notifying UCO of their absence and use the [COVID Report form](#) to self-report their situation on [UCO's SharePoint](#)
 - ii. Once people have submitted their Covid Report form, Steven Vogel, Deputy Vice Chancellor (Research) and Francesca Wiggins, Head of Clinical Practice only will be notified of this. Your information will then be reviewed and we will be in touch with advice. Additional advice is available [here](#).
 - iii. Those in this situation should follow the test and trace guidance which is available here: <https://www.gov.uk/guidance/nhs-test-and-trace-how-it-works>
- i. Further information about actions to be taken if you live with someone who has COVID-19 or have been in contact with someone who has COVID 19, have been asked to self-isolate by NHS track and trace and related scenarios may be found

at the following sites: <https://www.gov.uk/government/publications/COVID-19-stay-at-home-guidance>, <https://www.nhs.uk/conditions/coronavirus-COVID-19/self-isolation-and-treatment/when-to-self-isolate-and-what-to-do/>

- j. Please note that for some staff and students there are different expectations following having had a close contact with someone who has been confirmed as testing positive for COVID 19.
- k. A contact can be any time from 2 days before the person who tested positive developed their symptoms (or, if they did not have any symptoms, from 2 days before the date their positive test was taken) and up to 10 days after – as this is when they can pass the infection on to others. A contact includes any of the following:
 - i. anyone who lives in the same household as another person who has COVID-19 symptoms or has tested positive for COVID-19
 - ii. anyone who has had any of the following types of contact with someone who has tested positive for COVID-19:
 - 1. face-to-face contact including being coughed on or having a face-to-face conversation within one metre
 - 2. been within one metre for one minute or longer without face-to-face contact
 - 3. been within 2 metres of someone for more than 15 minutes (either as a one-off contact, or added up together over one day)
- l. If a staff member or student involved in clinical care or practical work in close contact with an individual with COVID-19 infection and is wearing the correct PPE appropriately in accordance with the UK IPC guidance and How to work safely guidance, they will not be considered as a contact for the purposes of contact tracing and isolation. This applies regardless of the vaccination status of the staff member or the circulating variant of COVID-19.
- m. Detailed guidance for health settings is [here](#) (see section 2: Guidance for health and physical care staff on COVID-19 symptoms, test results and being identified as a contact of a case).

3. PRACTICAL AND CLINICAL STAFF, AND STUDENT OSTEOPATHS - CLOSE CONTACTS

- If you are a student of osteopathy or a practising osteopath
- AND, have had two doses of an approved vaccine, and are at least two weeks (14 days) post double vaccination at the point of exposure
- AND are contacted by track and trace, or alerted by the NHS COVID-19 app or informed by UCO of a contact, you will need to take the following steps:
 - I. Book a PCR test immediately. You MUST receive a negative PCR test before returning to any clinical or practical work. Log your PCR test result on the [COVID Report UCO SharePoint page](#).
 - II. Do not attend any clinical or practical work whilst awaiting the PCR test result.
 - III. For the remaining period (this will be a maximum of 10 days from the initial exposure) you will need to take daily LFD tests. You will need to look on the app for when the exposure took place. Test results must be reported to Test and Trace [via the web portal](#) and logged on the [COVID report UCO SharePoint site](#).

- IV. Self-isolate and arrange a PCR test if a LFD test is positive.
- V. Self-isolate and arrange a PCR test if you become symptomatic.
- VI. Continue to use Infection Prevention and Control (IPC) measures, in line with the current UK IPC guidance.
- VII. If you have had COVID-19 within the past 90 days, you should not take a PCR test and should undertake daily LFD tests.

For more information, please see guidance for the management of Covid-19 in healthcare settings below:

<https://www.gov.uk/government/publications/covid-19-management-of-exposed-healthcare-workers-and-patients-in-hospital-settings/covid-19-management-of-exposed-healthcare-workers-and-patients-in-hospital-settings>

4. UNVACCINATED STAFF AND STUDENTS – CLOSE CONTACTS

- a. If you are unvaccinated or partially vaccinated and are notified as a contact of a COVID-19 case, by NHS Test and Trace or by the UCO, you must self-isolate as advised. Detailed information can be found [here](#).
- b. Isolation after a contact is for 10 days. An isolation period includes the date of a last contact with the person who has a positive test result for COVID-19 and the next 10 full days. This means that if, for example, a last contact with them was at any time on the 15th of the month the isolation period ends at 23:59 on the 25th.
- c. You can only stop your self-isolation before 10 full days have been completed if you have been contacted by NHS Test and Trace and advised to do so. Otherwise, you must continue to self-isolate and follow this guidance.
- d. You should seek a PCR test during your isolation period. If this is negative, you should continue with your isolation period. If positive follow the [stay at home guidance](#) and start a further period of isolation for 10 days.

5. NON-CLINICAL VACCINATED STAFF – CLOSE CONTACTS

- a. Do daily rapid lateral flow tests (1 a day for 7 days), or until 10 days since your last contact with the person who tested positive for COVID-19 if this is earlier. [find out more about daily testing on GOV.UK](#)
- b. Follow advice on [how to avoid catching and spreading COVID-19](#)
- c. Consider limiting contact with [people who are at higher risk from COVID-19](#)

6. VACCINATIONS

- a. UCO has published [a statement](#) supporting the UK's vaccination programme.
- b. Clinical staff and students have been offered the opportunity to seek vaccination in line with government priority scheduling in partnership with Southwark Public Health and South East London CCG.
- c. All staff and students are asked to seek COVID-19 vaccinations. These may be booked [here](#).
- d. Walk in vaccination clinics local to UCO can be found [here](#).
- e. All staff and students are asked to log their vaccinations on [SharePoint](#)

7. TRAVEL TO AND FROM UCO

- a. Users of the Borough High Street site should consider current government guidance concerning travelling on public transport and the necessary measures that should be taken. See for further information:
<https://www.gov.uk/guidance/coronavirus-covid-19-safer-travel-guidance-for-passengers>
- b. The teaching schedule and methods of delivery have been adjusted to mitigate travel risk where possible.
- c. We acknowledge that many people may be apprehensive about travelling and that other options, such as virtual classes and video recorded classes are likely to continue to be arranged when suitable in addition to face to face teaching. For practical classes, particular care has been taken to mitigate the risk of exposure to COVID-19 (see section 5 on Physical Distancing and Section 8 on Infection Control).
- d. Walking and cycling to the Borough High Street site are encouraged where practicable.
- e. Plan to arrive at the Borough High Street Site in good time to allow for flexibility and to minimise congestion when entering the building.
- f. If staff and students travelling from areas which are undergoing [surge testing](#), different public health guidance applies and they should ensure they get tested before they travel. If they test positive, their polymerase chain reaction (PCR) test will be sent to a laboratory for genomic sequencing, and they must not travel. They must isolate with their household immediately and follow the [guidance for households with possible or confirmed coronavirus infections](#). The UK Health Security Agency will carry out enhanced tracing of close contacts of confirmed cases of the variants.
- g. New and returning students travelling from overseas are permitted to study remotely without a visa, and in most circumstances will be able to begin their course via distance learning. Visa concessions for those on Student (or Tier 4) visas allow for the provision of online learning for students outside the UK until the 6 April 2022. These visa concessions have been implemented so that students have a greater degree of flexibility on when they travel into the UK. Students that are travelling to the UK from overseas need to check and adhere to the [latest travel advice](#) on their return. Further travel information for students is available [here](#).

8. FOOD AND REFRESHMENTS

- a. Users of the BHS site are advised to bring with them their own personal items and where possible food and refreshments that do not need refrigeration or secondary heating. These should be brought into the building and taken home on a daily basis.
- b. In order to minimise the risk of cross contamination, shared utensils such as cutlery, cups and plates, will not be available for use. Microwaves and fridges are available but should be sanitised before and after use along with surfaces and other areas that are used. Cleaning material for this purpose is provided throughout the building (see section 5.3.c for details).

- c. Staff should use their office spaces or communal areas for eating and refreshments but are advised that physical distancing is encouraged.
- d. Students should use the bar area, seating area in the car park if the weather permits, G.02 if available and the library space. As UCO begins to have more people on site, students may need to consider eating lunch in an additional unused teaching room. Physical distancing is encouraged. Furniture should not be re-arranged. It is organised in such a way as to allow for one-two metres distance between people. Food may be consumed in your allocated teaching spaces (but not the clinic area on the second floor), but please take care to not leave any items behind and to sanitise the space you used when you leave your session.

4. DELIVERING EDUCATION

1. UCO APPROACH

- a. The UCO is committed to delivering high quality education that provides opportunities for all to access learning using a range of different approaches.
- b. In response to COVID-19, the UCO has moved to a blended delivery model, which has focussed on delivering practical and essential discursive learning sessions in person at the UCO Borough High Street site. Face-to-face teaching of non-practical elements of the curriculum is anticipated to be reintroduced for the Autumn term. UCO have invested in new technology to enhance access to online teaching and recordings material for those who elect not to attend in person.
- c. Synchronous (live) and asynchronous (at a time of your choosing) learning opportunities will be delivered virtually using a variety of platforms and our virtual learning environment as appropriate.
- d. Students who are unable to attend practical classes, should notify registry in accordance with normal procedures; students who are unable to attend clinic should notify clinic absences as normal. Demonstrations and practical teaching will be video recorded and uploaded onto BONE where possible.

2. PRACTICAL EDUCATION

- a. We will deliver practical classes with adjustments to infection control procedures to promote a safe learning environment.
- b. Prior to attending Borough High Street for practical classes or for clinical education, staff and students must watch the UK Health Security Agency video on putting on and taking off PPE which can be found at:
https://www.youtube.com/watch?v=-GncQ_ed-9w&feature=youtu.be
- c. Staff leading practical sessions will review PPE and infection control procedures at the initiation of a learning session and subsequently as appropriate.
- d. Students on award bearing courses will not be taught in groups of any larger than thirty-five and in spaces where physical distancing can be promoted.
- e. CPD delegates and other users of the site for learning activities will be taught in groups appropriate to the capacity of teaching spaces whilst maintaining physical distancing.

3. LEARNING HUB USE

- a. The learning hub will be open for use between 9:00 am and 7:00 pm weekdays and 10:00 am and 7:00 pm on teaching weekends. For term dates and teaching weekends, please go to the [SharePoint page here](#).
- b. Workstation and workspaces have been arranged to encourage physical distancing and users are asked not to adjust the layout of furniture.
- c. Face coverings are mandated in the learning hub as in all other areas of the building. Those who are exempt for reasons of age, health or disability are suggested to indicate this with a badge available from the library.
- d. The library may also be used as a space for eating lunch and taking breaks by students. Physical distancing is encouraged if the library space is being used for eating and drinking.

5. STAYING SAFE AND PHYSICAL DISTANCING

- a. The following changes have been put in place in order to minimise the risk of COVID-19 transmission. This will continue to be reviewed in light of changes in guidance from UK Government and other relevant authorities.
- b. Face coverings are mandated around the building, teaching areas and in communal areas unless exempt.
- c. Physical distancing requirements are no longer mandated; however, we recommend that staff and students are mindful of the value of physical distancing and continue to use this important measure.
- d. We ask that all staff and students are particularly sensitive to the views and behaviours of others particularly with respect to use of face coverings and physical distancing. Do check with colleagues and peers as to their comfort and expectations in an empathetic and accepting manner.

1. ARRIVAL

When you arrive at the BHS building:

- a. Please wear a face covering fully over your mouth and nose when you are entering the building.
- b. Use the hand sanitisers in the reception area on arrival and before leaving this area.
- c. Those with a smart phone must scan the QR code on entry using the NHS COVID-19 APP and ensure that the Contact Tracing feature is turned on except when in a clinical or practical teaching setting and wearing full PPE including surgical masks.
- d. We recommend the maintenance of physical distancing throughout the building.
- e. Avoid touching your face.
- f. Avoid touching any additional surfaces or objects where possible whilst in the building.
- g. Proceed to your work area or allocated teaching space.

2. MOVING THROUGH THE BUILDING

- a. You are expected to wear face coverings when moving around the BHS building unless exempt. Infection Prevention Control (IPC) guidance advises that patients and visitors across all healthcare settings should wear a face covering, providing it is tolerated and is not detrimental to their medical or care needs. Guidance about face coverings and their usage is available here:
<https://www.gov.uk/government/publications/face-coverings-when-to-wear-one-and-how-to-make-your-own/face-coverings-when-to-wear-one-and-how-to-make-your-own>
- b. There are numerous sanitiser stations at BHS and we encourage you to use these regularly.
- c. The lift is restricted to the use of one person only at a time. Priority should be given to people with impaired mobility and to those with disability, as well as to patients going to and from the second floor.
- d. There are one-way systems in place, where possible, to enhance the safe flow of people through the building. These include:
 - a. Teaching rooms where there are 2 doors
 - i. Doors are signposted for entrance and exit
- e. Stairwells
 - a. The main stairwell at BHS will have people moving up and down the stairs and so people must keep to the left and maintain physical distancing where this is possible. The main stairwell will be used for the following:
 - i. For patients and those working with patients to ascend and descend the stairs to and from clinical areas. Staff and students working in clinic may ascend and descend the main stairs to access other areas of the building.
 - ii. For non-clinical staff and students, we ask that you use the main stairs to access upper floors in the building and avoid descending using these stairs.
 - b. The fire escape stairwell should be used by non-clinical staff and students to descend the stairs and/or exit the building from floors 1, 2, 3 and 4.
- f. Once you arrive at a classroom you are encouraged to maintain physical distancing and are expected to use a face covering.

3. COMMUNAL AREAS

- a. Communal areas are potential sources of higher risk of cross contamination with higher numbers of people being in one space and having contact with surfaces such as door handles, kettles, etc.
- b. Some furniture and equipment may have been removed or may not be available for use in communal areas to facilitate physical distancing or to decrease the risk of cross contamination between people by limiting the use of shared equipment.
- c. Please do not re-arrange furniture as it is laid out to enable people to maintain physical distancing.
- d. Communal areas at BHS include the stairs and stairwells, kitchens, locker room, bar, G02, library, toilets, staff rooms, meeting rooms, corridor, car park and outdoor space. In these areas, please ensure that you:

- a. Have sanitised your hands before entering the area
 - b. Adhere to the guidance on maximum capacity (signage on entry door)
 - c. Consider maintaining physical distancing whilst in the space
 - d. Open windows and doors to enhance ventilation where possible
 - e. Clean down with sanitiser and blue roll, any appliances, such as a microwave, kettle, fridge doors, that you are going to use or have contact with
 - f. Clean down with sanitiser and blue roll, any appliances, and areas that you have used or come into contact with
 - g. Adhere to any one-way flow signage and directions
- e. The UCO will continue to support staff who seek flexible working where this is possible. Meetings may be held virtually. When there are meetings, or small group gatherings held in person, attendees should wear face coverings and maintain physical distancing. We ask that all staff and students are particularly sensitive to the views and behaviours of others particularly with respect to use of face coverings and physical distancing. Do check with colleagues and peers as to their comfort and expectations in an empathetic and accepting manner. This should be in addition to considering whether the ventilation is sufficient in the space the meeting or gathering is taking place.
- f. Toilets: where these are individual cubicles, these will remain in use. However, with urinals, alternate urinals may be closed to increase the distance between those using them. Similarly, you should consider maintaining physical distancing when using the sinks in the toilets.

4. TEACHING SPACES

- a. Teaching spaces should be used in a manner that minimises risk of transmission of COVID-19.
- b. Each teaching space has a maximum occupancy that should be considered; this occupancy is an estimate the numbers of people who can use the room whilst maintaining physical distancing.
- c. Teaching spaces have been set out to make the best use of the space to enable physical distancing.
- d. When in a teaching space, please make sure that you:
 - a. Do not rearrange the layout of the room
 - b. Consider the guidance on maximum capacity (signage on entry door)
 - c. Use windows to enhance ventilation
 - d. Consider maintaining physical distancing whilst in the space
 - e. Wear a face covering
 - f. Clean down with sanitiser and blue roll, any areas that you have used or come into contact with
 - g. Clean down with sanitiser any equipment that you use that may be used by others. For example, this might include wiping down white board markers and board rubbers or equipment such as anatomical models
 - h. Dispose of any blue roll in the bins provided
 - i. Adhere to any one-way flow signage and directions

- j. G.02 on the ground floor has fans in the window spaces and these should be in operation when the room is in use. The switch to turn on these fans is on the left-hand wall (Borough High Street wall) towards the back of the room
- e. Lecturers
 - a. Lecturers may choose to deliver non practically based teaching using a face covering and are encouraged to maintain physical distancing
 - b. Lecturers should check that windows and ventilation is in place.
 - c. Where a session of delivery is planned to take place for a period greater than one hour, a break should be scheduled to allow for ventilation of the teaching space.

5. PRACTICAL TEACHING

- a. Practical teaching spaces have been audited with the key principles of this document in mind, that is infection control processes, occupancy numbers, physical distancing, ventilation and face coverings.
- b. Each practical teaching space has a maximum occupancy that should be considered; this occupancy is an estimate the numbers of people who can use the room whilst maintaining physical distancing.
- c. Practical teaching spaces have been set out to enable physical distancing for those who wish to maintain it.
- d. PPE provides additional mitigation to the risk of transmission and as such it is not a requirement to break mid-session to ventilate the teaching space. Windows should be open to ensure adequate ventilation throughout the session of teaching.
- e. When in a practical teaching space, please make sure that you:
 - a. Do not rearrange the layout of the room
 - b. Sanitise your hands on entering the space
 - c. Adhere to the guidance on maximum capacity (signage on entry door)
 - d. Use windows to enhance ventilation
 - e. Consider maintaining physical distancing whilst in the space unless in full PPE for practical activities
 - f. Wear footwear that can be disinfected and scrubs
 - g. Use Personal Protective Equipment (PPE) as appropriate and set out in this document under Section 8 Infection Control
 - h. Clean down your work area with sanitiser and blue roll before you use it
 - i. Clean down with sanitiser and blue roll, any areas that you have used or come into contact with
 - j. Clean down with sanitiser any additional equipment that you use that may be used by others. For example, this might include wiping down white board markers and board rubbers or equipment such as anatomical models
 - k. Dispose of any blue roll in the bins provided
 - l. Adhere to any one-way flow signage and directions
- f. To limit cross infection and enable physical distancing, students must only work with colleagues if they adhere to infection control procedures outlined in this policy for practical and clinical contact.
 - a. All students are to wear scrubs and appropriate PPE (as if this were a patient and practitioner interaction).

- b. The practical room configuration provides plinths that are a separated optimally.

6. OFFICES

- a. Office spaces have been audited with the key principles of this document in mind, that is infection control processes, occupancy numbers, physical distancing, ventilation and face coverings.
- b. Consider the use of virtual meetings with colleagues and students in preference to in person meetings.
- c. Where office space is occupied by more than one person, face coverings should be worn unless exempt.
- d. Adhere to signage about the use of the office space and how to arrange a meeting if appropriate.
- e. Liaise with colleagues about attendance at UCO and work from home when this is possible.
- f. Avoid hot desking – stick to one workstation for the duration of your session at UCO.
- g. When in an office space:
 - a. Do not rearrange the layout of the room.
 - b. Adhere to the guidance on maximum capacity where it has been provided for larger offices or spaces as appropriate (signage on entry door).
 - c. Consider maintaining physical distancing whilst in the space.
 - d. Use windows to enhance ventilation.
 - e. Clean down your work area with sanitiser and blue roll before you use it.
 - f. Clean down with sanitiser and blue roll, any areas that you have used.
 - g. Clean down with sanitiser any equipment that you use that may be used by others. For example, office furniture such as filing cabinets and cupboards.
 - h. Dispose of any blue roll in the bins provided.

9. TRAINING OF STAFF AND STUDENTS

All staff and students entering the UCO BHS site must be aware of their own responsibilities and duties so that we can ensure we are all working to the highest standards, to ensure the safety and wellbeing of all who work, study or visit the UCO. Institutional guidance and risk assessments are available on UCO's main website: <https://www.uco.ac.uk/life-ucocoronavirus-covid-19>. Additional information and updates are available on SharePoint here: <https://bso.sharepoint.com/sites/Covid-19>

- a. Staff and students must read and review preparatory material prior to attending the UCO and material related to the particular context of attending practical classes and other activities including this policy and guidance. A mix of online preparatory work and written material has been provided, covering a range of topics such as:
 - i. Responsibilities with regards to hygiene control
 - ii. Handwashing
 - iii. Putting on and taking off of PPE and masks/gloves during the session
 - iv. Disposal of PPE
 - v. Adherence to twice weekly asymptomatic testing

10. REGULAR DISSEMINATION OF INFORMATION

- a. It is important that we have a regular cycle of disseminating information and ensuring that this is current.
- b. This will be via a number of platforms, including UCO's website:
<https://www.uco.ac.uk/life-uco/coronavirus-covid-19>, SharePoint:
<https://bso.sharepoint.com/sites/Covid-19> and via displays within the building.
- c. Signage is in common areas, and covers for example:
 - a. Handwashing and hand sanitisation
 - b. Changes to room function (e.g. maximum capacity, one-way flow, sanitisation expectations etc)
 - c. Movement through the building
 - d. Physical distancing
 - e. Wearing of face coverings
 - f. Current guidance and information

11. INFECTION CONTROL

There are a number of important changes with infection control at the UCO since COVID-19. It is essential that all students, staff and visitors know what their responsibilities are with regards to this. It is therefore expected that all staff and students will have a thorough knowledge and understanding of this and that in any situation where they are unsure, they seek advice from a member of staff.

1. ALL

- a. Ensure regular and [effective handwashing](#) and/or use of hand sanitiser. Effective and frequent handwashing is still thought to be one of the most effective ways to combat the spread of COVID-19.
- b. Consider wearing face coverings when moving around the building, in teaching settings, meetings with high numbers of people and in spaces with poor ventilation. If exempt from wearing a face covering for reasons of age, health or disability, you may choose to indicate this via wearing a badge.
 - a. How to wear a face covering
 - i. A face covering should:
 1. Cover your nose and mouth while allowing you to breathe comfortably
 2. Fit comfortably but securely against the side of the face
 3. Be secured to the head with ties or ear loops
 4. Be made of a material that you find to be comfortable and breathable, such as cotton
 5. Ideally include at least three layers of fabric
 6. Unless disposable, it should be able to be washed with other items of laundry according to fabric washing instructions and dried without causing the face covering to be damaged
 - b. When wearing a face covering you should:

- i. Wash your hands thoroughly with soap and water for 20 seconds or use hand sanitiser before putting a face covering on
 - ii. Avoid wearing on your neck or forehead
 - iii. Avoid touching the part of the face covering in contact with your mouth and nose, as it could be contaminated with the virus
 - iv. Change the face covering if it becomes damp or if you've touched it
 - v. Avoid taking it off and putting it back on a lot in quick succession (for example, when leaving and entering shops on a high street)
- c. When removing a face covering:
- i. Wash your hands thoroughly with soap and water for 20 seconds or use hand sanitiser before removing
 - ii. Only handle the straps, ties or clips
 - iii. Do not give it to someone else to use
 - iv. If single-use, dispose of it carefully in a residual waste bin and do not recycle
 - v. If reusable, wash it in line with manufacturer's instructions at the highest temperature appropriate for the fabric
 - vi. Wash your hands thoroughly with soap and water for 20 seconds or use hand sanitiser once removed

For further information see:

<https://www.gov.uk/government/publications/face-coverings-when-to-wear-one-and-how-to-make-your-own/face-coverings-when-to-wear-one-and-how-to-make-your-own>

2. WHAT DO STUDENTS NEED TO BRING FOR PRACTICAL TEACHING SESSIONS AT BHS?

- a. Scrubs top
- b. Scrubs bottom
- c. Appropriate practical shoes - must be wipeable, supportive, any colour
- d. Any equipment that may be needed for that session, such as your Clinical Examination kit (so patella hammer, stethoscope etc.)
- e. Your UCO ID swipe card (to gain entry)
- f. Pillowcase in a plastic bag – to put scrubs in at the end of the session
- g. Plastic bag for your shoes – to put your shoes in at the end of the session
- h. Water bottle with your name on it
- i. Hair tied back so that it is not on your face (we want you to avoid touching your face and hair to prevent excessive face touching)
- j. Bare below the elbow - please ensure that you remove any jewellery or watches, as part of getting ready for a practical session
- k. Enthusiasm, energy, calmness and sense of humour

3. RESPONSIBILITIES OF LECTURERS

- a. Lecturers delivering session face to face or virtually where students are attending at the BHS site are responsible for supporting and encouraging students and other staff into with regards to the value of physical distancing and infection controls. Explicit demonstration and articulation of this is encouraged.

- b. Examples are:
- a. Demonstrating good practice by wiping down surfaces and equipment that a lecturer will use before and after a session. This includes planning ahead and making specific arrangements for use of additional equipment such as anatomical models.
 - b. Ensuring that windows are used to enhance the ventilation within a room
 - c. Ensuring that students wipe down workspaces or practical areas prior to and after use. This includes wiping down of common touch areas such as window handles, door handles, aircon control and light switches.
 - d. Reminding people about the need to consider physical distancing and being particularly sensitive to the views and behaviours of others particularly with respect to use of face coverings and physical distancing. Check with colleagues and peers as to their comfort and expectations in an empathetic and accepting manner is encouraged.
 - e. Considering maximum occupancy numbers for teaching rooms
 - f. Supervising the entry and exit of students from a session in rooms where there is one way flow signage and directions in place (G.02, 1.03, 1.05, 4th floor practical teaching rooms 4.14/4.15 and 4.16)
 - g. Ensuring that furniture is not moved to support the use of physical distancing.
 - h. That students should wear face coverings when in the building, including teaching settings and moving around the building.
 - i. NB: G.02 on the ground floor has fans in the window spaces and these should be in operation when the room is in use. The switch to turn on these fans is on the left hand wall (Borough High Street wall) towards the back of the room

4.ARRIVAL IN YOUR CLASSROOM

- a. When you arrive at your classroom, please ensure that you consider physical distancing and wipe down your workspace or any equipment before the sessions begins and after the session ends.
- b. If any equipment and/or models are to be used during the teaching session, these will need to be disinfected prior to and after use.

5.PRACTICAL TEACHING SESSIONS

- a. When you arrive for a practical teaching session, please change into your scrubs and appropriate footwear that you have brought with you. This can be done in the room, behind screens in the room or in nearby rooms where space is available.
- b. Your footwear must be wipeable, supportive and is only for use when you are in the practical class.
- c. Clothes and footwear that you travelled in to get to the building, must be placed in a plastic bag and placed in your own bag.
- d. Medical face masks should be worn at all times during practical teaching; the remainder of your PPE should be donned when you are working with a colleague.
- e. Further to discussion with the Public Health Directorate at Southwark if you are unable to wear a surgical mask for practical teaching or for clinical work you will not be allowed to breach physical distancing requirements of 1-2 metres and thus will not

be able to take part in the practical learning session other than as a physically distanced learner.

- a. Individuals in this situation may need to consider their ability to tolerate mask wearing for short periods of time to enable them to participate in practical learning and clinical service delivery.
- f. Any electrical devices that you bring to teaching sessions, such as your phone, tablet, laptop etc. must also be cleaned to reduce any risk of infection.
- g. For how to safely clean your phone with minimizing screen damage please see <https://www.bbc.co.uk/news/av/technology-51863924/coronavirus-how-to-clean-your-smartphone-safely>
- h. Once you are wearing your full PPE you should set the Contact Tracing feature in the NHS COVID-19 APP to OFF
- i. Plinths, pillows, computers and lecterns must be disinfected before and after each use.
- j. You will be required to wear disposable gloves (sessional use), disposable plastic apron (sessional use) only on the basis of a risk assessment where there is a risk of transmission of blood or bodily fluids or if in contact with a confirmed case of COVID-19.
- k. Fluid resistant (Type IIR) surgical mask (sessional use) must be worn. Eye/face protection, face shield visor for example (dependent on risk assessment, this may be used for a session) and collectable from the PPE and sanitiser stations once you have changed into your scrubs.
- l. Visors/goggles
 - a. Each member of staff and student will be provided with a visor when you arrive for your first practical session and this will be yours to clean at the end of each session and yours to keep. If you damage or forget your visor, you will need to pay for a replacement at the clinic or purchase your own.
 - b. Any students or staff who would prefer to wear goggles may do so if they have considered the relative risk of their use. Goggles will need to be purchased by individuals.
- m. At the end of your practical session:
 - a. Deposit your used PPE in the bin as above (you will need to do this during the session when you work with different colleagues).
 - b. Lecturers will be responsible for checking that all used PPE and related items have been disposed of. Lecturers will also be responsible for emptying these bins at the end of a teaching session.
 - i. For the first floor teaching spaces, remove the bin bag and its contents and tie securely; go to the allocated room to deposit this. You should continue to wear your mask whilst doing this. The space allocated for this is on the first floor in the space between the two rooms opposite room 1.10. Leave the bin bag in the allocated space in the large bin.
 - ii. For the 4th floor teaching spaces, remove the bin bag and its contents and tie securely; store in the padlocked cabinet in the corridor leading to the fire escape. You should continue to wear your mask whilst doing this. At the end of the day ensure that this then cleared and taken to the first floor and stored in the space between the two rooms opposite room 1.10. Leave the bin bag in the allocated space in the large bin

- c. You should then change back into your travelling/day wear clothes and set the Contact Tracing feature in the NHS COVID-19 APP to ON
- d. Please ensure that you disinfect your footwear before placing this in a bag and in your locker or taking these home.
- e. Your used scrubs should be placed in your pillowcase and then in a plastic bag, before being placed in your bag, so that you can take these home.
- f. Once home, your scrubs should be placed immediately in the wash at 60 degrees.
- n. With any practical sessions, please ensure that you:
 - a. Wash hands routinely throughout the day as per current COVID-19 guidance and as per the infection control policy.
 - b. Are bare below the elbow and wash any area that has come into contact with another person.
 - c. Tie back any hair that is long enough to cover the face, to avoid touching your face while in the technique room.
 - d. Disinfect hands after contact with phones.
 - e. Disinfect your allocated plinth, and any instruments used (such as patella hammer, stethoscope etc) on arriving and on leaving. Equipment may also include wiping down of common touch areas such as window handles, door handles, aircon control and light switches.
 - f. Only use plinth roll on plinths (no plinth covers) when necessary (e.g. lumbar roll) and that this is changed after each model.
 - g. Remove and dispose of PPE appropriately.
 - h. Limit contact with objects that will need disinfecting - all bags etc. to be placed at the side of the room at an appropriate distance apart.
 - i. Do not rearrange the furniture in the rooms.
- o. Peer to peer practice
 - a. UCO recognises that students will want to have the opportunity to rehearse and develop their practical skills outside of formal scheduled practical classes.
 - b. Peer to peer practice is allowed but must follow the infection control guidance and requirements in this policy.
 - c. Students should arrive in the classroom for peer to peer practice and change into their scrubs in the designated area prior to obtaining the required PPE from the tutor – if it is a practice time where there is no tutor organised to be present then PPE can be collected from the library.
 - d. Students must record their attendance in a practical room for each session by taping in with their ID card where log in points are available.
 - e. Ensure that all plinths are cleaned prior to and after use maintaining a high level of hygiene and preventing the possible spread of COVID-19 and all used PPE placed in the bins provided.
 - f. All procedures in section 5 “Practical Teaching” must be adhered to when practicing outside of timetabled classes.
- p. Adherence to guidance for practical session
 - a. Students not adhering to any of the procedures and guidance described in section 5 “Practical Teaching” will be subject to disciplinary procedures
 - b. Unsupervised peer to peer practical sessions will be subject to periodic audit to assess adherence to guidance and to ensure safe practice

- q. Review of practical teaching procedures
 - a. Practical teaching guidance and policy have been developed to enable good practice habits to be established and to ensure competence using PPE effectively while practising. Suggestions for enhancements are welcome and should be emailed to <mailto:steven.vogel@uco.ac.uk>
-

6. WHAT PPE WILL BE REQUIRED

- a. Tutors and students are to use the following PPE when working within the practical classrooms:
 - a. fluid resistant (Type IIR) surgical mask (sessional use)
 - b. eye/face protection, face shield for example (dependent on risk assessment, this may be used for a session)
 - c. disposable gloves (sessional use), disposable plastic apron (sessional use) only on the basis of a risk assessment where there is a risk of transmission of blood or bodily fluids or if in contact with a confirmed case of COVID-19.
 - b. Models will be expected to wear face masks as patients would in a clinical setting.
 - c. Disposable PPE items will be disposed of in bins provided, with plastic bin liners that should be tied up prior to disposal.
-

7. STORAGE, PROVISION OF PPE, REMOVAL AND DISPOSAL OF PPE

- a. PPE, blue roll, sanitiser products will be stored in the store room next to 1.08 and this will be re-stocked by the facilities team in liaison with the staff leading practical sessions.
 - b. Used PPE will be stored on the 4th floor in a locked cabinet and taken to the first floor storage area at the end of teaching. First floor storage area is in the space between the two rooms opposite room 1.10. Leave the bin bag in the allocated space in the large bin. It can then be disposed of as part of the general waste.
 - c. The keys for the storage of PPE are available at from reception and **MUST BE SIGNED OUT AND BACK IN AFTER USE**. The practical teaching team also hold keys to storage areas.
 - d. The technique team and those leading practical classes will be responsible for providing all stock needed in practical rooms, including sufficient PPE, hand sanitiser and blue roll. Sanitiser and PPE stations are in place per pair of plinths.
 - e. Lecturers will be responsible for checking that all used PPE and related items have been disposed of. Lecturers will also be responsible for emptying these bins at the end of a teaching session.
 - i. For the first floor teaching spaces, remove the bin bag and its contents and tie securely; go to the allocated room to deposit this. You should continue to wear your mask whilst doing this. The space allocated for this is on the first floor in the space between the two rooms opposite room 1.10. Leave the bin bag in the allocated space in the large bin.
 - ii. For the 4th floor teaching spaces, remove the bin bag and its contents and tie securely; store in the padlocked cabinet in the corridor leading to the fire escape. You should continue to wear your mask whilst doing this. At the end of the day ensure that this then cleared and taken to
-

the first floor and stored in the space between the two rooms opposite room 1.10. Leave the bin bag in the allocated space in the large bin.

8. ENVIRONMENT

- a. The following changes have been made in all teaching rooms to encourage good hand hygiene and reduce the potential spread of infection:
 - a. Removal of non-essential material and equipment.
 - b. Plinths with ripped surfaces removed or repaired.
 - c. Handwash gel readily available
 - d. Supplies of handwash gel at transitional points in the building to be regularly checked and re-filled; the facilities team will be responsible for this, although all staff and students are expected to monitor this.
 - e. Batches of Milton spray and disposable towels available for sanitising equipment.
 - f. Doors and windows to be left open where possible to enhance ventilation.
 - g. Signage added to all rooms.
- b. Toilets
 - a. Additional regular cleaning of toilets will be taking place, with emphasis on areas where there is contact with hands (door handles, taps, soap dispenser, toilet seat, toilet flush, etc); the cleaning company will be responsible for completing this.
- c. Ventilation system
 - a. Windows and doors should be open during the day to enhance ventilation.
 - b. Air conditioning in BHS does not draw in fresh air from outside the building and should not be relied upon for ventilation.

12. LOGGING OF INTERACTIONS SO THAT WE CAN TRACE CONTACTS AND MANAGE POSSIBLE OUTBREAKS

1. REPORTING SYSTEM

- a. UCO's outbreak management plan provides information and scenario plans for managing COVID-19 related cases. Its available on UCO's website: <https://www.uco.ac.uk/life-uco/coronavirus-covid-19>.
- b. Staff, students and any other relevant visitors or stakeholders reporting COVID-19 related concerns should raise them through normal mechanisms for noting absence or concerns (this includes logging staff absence on Itrent). Line managers and staff receiving concerns from students should ensure that concerns are reported by individuals using the [SharePoint logging system](#).
 - a. Staff and students
 - a. All staff and students with Smart phones should make use of the NHS COVID-19 APP when entering the BHS site.
 - i. All students and staff should set the Contact Tracing feature to OFF when in a clinical or practical teaching setting when wearing PPE
 - ii. At all other times the Contact Tracing feature should be turned on

- b. All staff, students and visitors must use their ID card to log their movements in the building
- c. Staff and students with symptoms of COVID-19 or who feel unwell, should follow stay at home guidance and alert UCO through the usual channels and log their concerns on [SharePoint](#).
<https://www.gov.uk/government/publications/COVID-19-stay-at-home-guidance>
- d. Should a staff member or student develop symptoms whilst at the UCO, they should put on a surgical mask if not already wearing one, isolate themselves, inform their line manager/tutor and then return home and seek advice dependent on need (e.g. phone 111 contact GP etc). If you do not have a surgical mask, use your usual face covering. Surgical masks are available at the front desk reception on the ground floor.
- e. Students should notify registry and the lecturer who was with them at the time.
- f. Staff who test negative for COVID-19 may return to the UCO when fit to do so, following discussion with their line manager. Line managers should ensure that concerns, symptoms and tests are logged on SharePoint.
- g. Those who test positive, have an inconclusive test or are yet to be tested may return to work no earlier than 10 days from symptom onset if they fulfil the following:
 - i. have clinical improvement
 - ii. have been without a fever/temperature without medication for 48 hours
 - iii. they are medically fit to return to work. For further details see: [https://www.gov.uk/government/publications/COVID-19-management-of-exposed-healthcare-workers-and-patients-in-hospital-settings](https://www.gov.uk/government/publications/COVID-19-management-of-exposed-healthcare-workers-and-patients-in-hospital-settings/COVID-19-management-of-exposed-healthcare-workers-and-patients-in-hospital-settings)

- <https://www.gov.uk/government/publications/COVID-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-COVID-19-infection>
- h. Staff and students who have been in contact with a confirmed COVID-19 case should refer to section 2 “Responsibility to self-screen, seek asymptomatic tests twice a week and act on covid-19 symptoms”
- b. When contacted by Test and Trace or querying an NHS COVID-19 APP instruction to isolate via 111, Staff and Students should be clear about the context of any possible contacts that they may have had:
 - a. In a physical or learning context without PPE
 - b. Working in a healthcare setting or practical setting that is following robust risk assessment and mitigation processes, including the use of PPE, in line with government guidance for our setting and that you are a regulated healthcare professional or on a regulated health care programme of study
 - c. Close contact is a person who has been close to someone who has tested positive for COVID-19. This is any time from two days before the person

was symptomatic to seven days from the onset of symptoms. The definition of a close contact is as follows:

- i. A contact can be any time from 2 days before the person who tested positive developed their symptoms (or, if they did not have any symptoms, from 2 days before the date their positive test was taken) and up to 10 days after – as this is when they can pass the infection on to others. A contact includes any of the following:
 - ii. anyone who lives in the same household as another person who has COVID-19 symptoms or has tested positive for COVID-19
 - iii. anyone who has had any of the following types of contact with someone who has tested positive for COVID-19:
 - iv. face-to-face contact including being coughed on or having a face-to-face conversation within one metre
 - v. been within one metre for one minute or longer without face-to-face contact
 - vi. been within 2 metres of someone for more than 15 minutes (either as a one-off contact, or added up together over one day)
- d. Anyone with [symptoms of coronavirus](#) (a high temperature, a new, continuous cough or a loss or change to your sense of smell or taste) [can get a COVID-19 test](#), whatever their age.
- e. Local testing sites are accessible for students and staff and you would be directed to your nearest available site as required when contacting 111 or using these sites to access a test <https://www.gov.uk/get-coronavirus-test>, <https://111.nhs.uk/covid-19/>
- f. Summary flow charts for further information about return to work / study are available here:
[https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/892137/Flowchart for return to work symptomatic v3.2.pdf](https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/892137/Flowchart_for_return_to_work_symptomatic_v3.2.pdf)
- g. You may generate and send into UCO an isolation note using this website: <https://111.nhs.uk/isolation-note>
- h. Procedures for early outbreak management are available in UCO's [Outbreak Management plan: https://www.uco.ac.uk/life-uco/coronavirus-covid-19](#)
- i. The contact details for UCO's local Public Health Contacts are:
 - i. Southwark Council Public Health:
9am – 5pm, 5 days, email: <mailto:PublicHealth@southwark.gov.uk>
 - ii. PHE case / incident reporting - London Coronavirus Response Cell
0300 303 0450, LCRC@phe.gov.uk or phe.lcrc@nhs.net
Please note this inbox is monitored 9am-5pm, for any urgent issues please contact the LCRC by telephone.

13. ASYMPTOMATIC TESTING AND VACCINATIONS

Students and staff should seek and [report the results](#) of their lateral flow tests as part of the national university asymptomatic testing program.

- a. Home test kits are available for staff and students and can be collected from our colleagues at [London Southbank University: Main Reception Desk in their K2 Building which is on Keyworth Street](#).
- b. For those travelling via London Bridge Station, Southwark Community testing site is still available between the Shard and the London Bridge Station at London Bridge Station, St Thomas Street Exit, SE1 9QU. You can turn up without an appointment or book a scheduled time.
- c. UCO support the COVID-19 vaccination programme and encourage all staff and students to participate in the programme. Vaccinations can be booked [here](#). We request that staff and students log their vaccination status [here](#).

14. SUMMARY OF CHANGES

Summary of changes from V1.0 to V1.1

- Added to and clarified reporting COVID-19 related concerns
- Added use of NHS COVID-19 APP and expectations for its use
- Added change to face wearing requirements – to be worn in all settings with multiple occupancy
- Added further Test and Trace information
- Checked and amended as appropriate links to additional information
- Added constraints on clinical and practical activity to only be possible whilst wearing a surgical mask
- Added peer to peer practice procedures and expectations
- Clarified physical distancing requirements and highlighted higher risk situations and environments
- Amended information about COVID-19 communications on main UCO site, clinic and academic SharePoint sites
- Revised key contacts

Summary of changes from V1.1 to V1.2 2/11/20

- Added note of no travel from student term time address to permanent home address
- Links to National Restrictions guidance from Government from 5th November to 2nd December 2020
- Changed guidance with respect to practical teaching and peer to peer practice. Students now allowed to work with others in their teaching group bubble

Summary of changes from V1.2 to V1.3 18/11/2020

- Reframing and updating of this document to reflect the clinic relocating to BHS and that this document covers the whole BHS site; that the Clinic Operational plan reflects the detail required for this environment
- Update of the use of the main stairwell in light of the clinic relocating to BHS
- Changes to storage location and disposal PPE and changes to practical teaching locations.

Summary of changes from V1.3 to 1.4 01/12/2020

- Global changes to accommodate relocation of clinical services to BHS
 - G.01 converted to reception and patient waiting area
 - Second floor exclusively converted to clinical education and service area
 - Tutorial and clinic rooms created
- Changes to the availability of eating and communal spaces.
 - No food to be consumed on the second floor clinical area
 - Staff to use archive room (1.08) on the first floor
 - Students no longer have access to G.01 as a physical and eating space, and should use the bar, outside space, G.02 and the library space
 - Staff to change in 3.09 for clinic
- Changes to the movement in the building
 - The main stairs will now be used to ascend and descend to and from the second floor clinical area for those in clinic

- Students and staff not involved in clinical services should use the main stairs to ascend to the floor on which they are working or receiving education (1st, 3rd and 4th floor) and use the fire escape stairs to descend
- All should keep strictly to the left on the stairwells and maintain physical distancing
- Changes to procedure wearing scrubs
 - Staff and students may now wear their scrubs whilst taking breaks for lunch and refreshment within the UCO Borough High Street building
 - Staff and students must not exit the Borough High Street building wearing scrubs
- Reporting of symptoms and test results
 - Made clearer that students and staff must report symptoms to UCO immediately and NOT wait for a positive COVID test prior to contacting UCO.
- Changes to practical teaching and practice spaces
 - 1.03 on the first floor has been re-purposed for practical teaching
 - 1.05 on the first floor has been re-purposed for practical teaching and peer to peer practice
- Changes to PPE storage and disposal
 - PPE will be stored on the first floor in room in the storage room next to 1.07
- Used PPE from practical learning will be stored in a cabinet on the 4th floor and then in the space opposite 1.10 on the first floor.
- Used PPE from clinic will be stored in Berthon room

Summary of changes from V1.4 to 1.5 16/05/2021

- Updated and checked links to additional information and resources
- Added additional information about vaccinations and the expectation that staff and students seek asymptomatic testing twice weekly reflecting SharePoint updates over recent months
- Additional information on flexible working and updated links and information for those who may be extremely clinically vulnerable
- Amended reporting of symptoms and symptomatic testing results to reflect the self report system now available on SharePoint
- Updated to include face to face teaching for elements of the curriculum in addition to practical learning subjects
- Updated information and resources for students and staff related to travel
- Adjusted some control measure with respect to the lower rates of community transmission, asymptomatic testing and the impact of vaccination roll out: Reduced requirement for mask wearing to clinical, teaching, larger groups and movement through building. Removed expectation that medically exempt users of BHS should wear a visor at all times (NB for activities such as practical and clinical work, the same PPE requirements are in place including the use of a IIR surgical mask)

- Removed constraints on peer to peer teaching only being allowed in classroom bubbles, enabled peer to peer practice in available spaces in addition to the booking facility.

Summary of changes from V1.5 to 1.6 04/08/2021

- Face coverings are no longer mandated around the building and in communal areas, but we recommend their continued use particularly in teaching settings and in high occupancy areas.
- Physical distancing requirements are removed; however, we recommend that staff and students are mindful of the value of physical distancing and continue to use this important measure.
- We ask that all staff and students are particularly sensitive to the views and behaviours of others particularly with respect to use of face coverings and physical distancing. Do check with colleagues and peers as to their comfort and expectations in an empathetic and accepting manner.
- Added section on asymptomatic testing and vaccination.
- Updated travel guidance
- Updated and tested links

Summary of changes from V1.6 to 1.7 13/09/2021

- Updated guidance on response to being contacted by test and trace for clinicians and clinical students
- Updated ventilation guidance
- Updated access to Berthon room and flow guidance through building

Summary of changes from V1. to 1.8 30/12/2021

- Updated guidance in response to contact action
- Updated face covering guidance
- Updated PPE guidance
- Removed some aspects related to clinical services in response to clinic return to SBR
- Updated links and aligned with updated guidance from government, NHS, and others
